Remember, when figuring prize money for your groups to consider any junior pitching in a group. For example, a junior in a six-person group makes the payout a five-person group.

If a junior places in the money, the prize money is paid to the pitchers finishing below him/her.

If there is a tie for first place and the pitchers do not want to play off, the prize money for the places are to be added together and divided equally between the pitchers, with ringer percentage figuring actual position placed.
